LANGUAGES
for life

Dear teacher,

Brilliant **IDEAS** is a new inquiry-based methodology based on active learning for investigative young minds. Pupils will build on previous knowledge, practise critical thinking skills, develop key competences and participate in cooperative learning activities to discover and explore science.

Anaya is pleased to invite you to a presentation of our new materials. It's a great opportunity to get to see them first hand as well as meet other teachers and share ideas and strategies for the bilingual classroom.

WHERE: *Hotel Montera Plaza. Avda. Carlos Cano, s/n*
